

A silver laptop is open on a light-colored desk. The screen displays a website with a dark background and white text. The text on the screen includes "Less Time" and "Less Confusion". A large red overlay covers the left side of the image, containing the main title and website URL. The background is slightly blurred, showing a smartphone and some cables on the desk.

SPECIAL NOTES

PLEASE OBSERVE THE FOLLOWING FOR HTML5 AND E-PAPER LINKS

NOTES ON HTML5

- / For detailed instructions about programming, please refer to the documentation by our ad server provider at the following link:
[Addition HTML5 Specs](#) >
- / For best on-screen display results, do not use fixed widths (width = 980 px). Instead specify a maximum width (980 px)
- / **Please note:** It is mandatory to include a fallback image when sending us HTML5 banners.

INFORMATION ON E-PAPER LINKS

Pay attention to iOS and Android compatibility.
Please provide only links to files, not the files themselves.
Maximum length of the link: 110 characters

TRACKING GUIDELINES

FOR ADVERTISERS AND AGENCIES REGARDING THE USE OF TRACKING

GENERAL TRACKING NOTES

- / You have the option of providing a count pixel for impression tracking and a click command tracker to measure clicks.
- / For booked campaigns with a guaranteed number of ad impressions, only the data is considered valid if it has been made available in reporting measured by the publisher using the Addition ad server.
- / **CAUTION ABOUT NEWSLETTERS:** Only https links can be used in newsletters. Additional formats such as those in JavaScript cannot be used. Visibility/viewability can generally not be measured in newsletters.
- / The use of the collected tracking data is exclusively limited to the booked campaign and booked period on our websites. Any other use or sale of the data to third parties is prohibited.

TRACKING NOTES About the Transparency and Consent Framework (TCF)

- / The following points must be observed as soon as a tracking/pixel/tag is used in a campaign that processes personal data:
- / All URL-based components of an ad (such as a redirect or pixel tracker) must contain the IAB macro `gdpr_consent=${GDPR_CONSENT_XXX}` for processing the TC string. In this example, "XXX" represents the numeric vendor ID provided in the IAB global vendor list.
- / Example:

INFORMATION ON TECHNICAL SERVICE PROVIDERS (VENDORS)

Please provide the names of the technical service providers which will be used. A service provider/vendor may only be used if it has already been implemented on the consent management platform and of course only if user consent has been given..

IMPORTANT INFORMATION ABOUT DATA DELIVERY

SO YOUR CAMPAIGN CAN BEGIN ON TIME

- / Landing links should only go to [https-encrypted websites](#) (in some cases current browser versions no longer load unencrypted http pages)
- / Please deliver only unformatted text for text ads.

- / Be sure to deliver data to the following e-mail **no later than 12 days** before the campaign starts:

- / Nina Doroschan
Manager Mediaservice
+49 69 7595-1745
lz-anzeigen@dfv.de
